Erratum

Synthesis of AZT/d4T Boranophosphates as Anti-HIV Prodrug Candidates

C. Lin, H. Fu,* G. Tu, Y. Zhao* Synthesis 2004, 509.

The structures and names of compounds 8 and 8’ were incorrectly represented as dimethoxytrityl-protected dinucleotide phosphates. The correct structures and names are as follows:

$$O-(2’\text{-deoxythymidin-3’-yl})-O’-(3’\text{-azido-3’-deoxythymidin-5’-yl}) \text{ H-phosphonate (8)}$$

$$O-(2’\text{-deoxythymidin-3’-yl})-O-(2’,3’\text{-didehydro-2’,3’-dideoxythymidin-5’-yl}) \text{ H-phosphonate (8’)}$$

The authors apologize for these errors.
